As the country's budding leaders, what would your role be when Sri Lanka celebrates its centennial,

INDEPENDENCE DAY IN 2048 ?

We're looking for you, the creative minds out there, to help us develop and build a major tourist attraction in the southern province using,

- **3D Mapping**
- **Projection Arts**
- **Sensor**
- **AI-based Arts... etc.**

It should show how young people are contributing to society and culture business-wise in fostering the nation's growth.

In a pinch, it's possible that multiple Southern tourist hotspots may be combined into one.

Plans can have ,

- **Short-**
- **Medium-**
- **Long-term focus.**

Your ideas and designs must be submitted by or before **10th January 2023**

The best ideas will be selected for implementation

You have the chance to create history and renown for the nation.

University of Ruhuna

"MARKS FOR THE CENTENARY" idea submission

The BIG picture

- National Youth Platform is a platform created through the presidential Secretariat in parallel to the 75th National Independence Day Celebration for the youth to come forward and work to make the changes they want to see in this country.

- The Vision: *"Learn from the Past, Focus on What We Have Now, Plan and Execute for the Next 25 Years to Make Sri Lanka a Developed Nation by the Year 2048"*

What we want?

- **Propose, design, and construct** tourist attractions in Galle to carry the message *"In 25 years when Sri Lanka celebrates the 100th National Independence Day, the present youth in this country has brought the nation to a developed status"*

Ideas/ Projects should be

- Able to attract tourists

- Sustainable in terms of finances and resources

- Showing young talent in our country

- Teams of University Students

- Time-bound Projects (Short, Medium or Long term). Maximum time to be implemented 9 months.

- Deadline: 10th January 2023, 5pm

- To be implemented in or around Galle

Selection and future steps

- Selected ideas and projects from this round maybe grouped for future implementations.

- Students are encouraged to send in multi-team proposals and single-team proposals

- The Presidential Secretariat has decided to give the opportunity to the government universities in Sri Lanka to (term attraction will be defined later in this presentation) around Sri Lanka.

Some examples

- Light, water, and music show

- Synchronized 3D Mapping arts to

- Significant Buildings

- Robotics and AI-Based Art

- Sensor-based art and designs

- Ideas for infrastructure for above projects (support services etc)

- How to make projects sustainable

To be submitted to https://forms.gle/USUBNZtwUea8hjyC7 on or before 10th January 2023 5pm. *Proposal Format is given in the next page*

The best ideas from each faculty will be recognized and rewarded

"MARKS FOR THE CENTENARY" idea submission

To be submitted to https://forms.gle/USUBNZtwUea8hjyC7 on or before 10th January 2023 5pm. *(This document can be uploaded in pdf format at the end)*
